

Pooltester KITS

The Palintest Pooltester kits offer a range of kits for the private pool or spa owner. They are very simple to use - dip the Pooltester block into the pool to fill with water, add the test tablets and then compare the colours.

The Pooltester kits are a quick and easy way for the routine control of private pools and spas.

Pooltester blocks are manufactured in durable clear polyacrylate and have long-lasting printed colour standards. They are supplied in a pocket-sized case which may be used either free-standing or wall-mounted.
